Recommendation:

It is recommended that the State Board give approval for

a one-year extension of the current charter between the

State Board and the Storm Lake school board.

Background:

The charter held by the Storm Lake Community School District is due for renewal. Recent meetings between Department and District staff indicate that charter specifications were interpreted differently due to changes in administration, etc., over time. A one-year extension of the current charter ensures that the 100+ students in the current charter will have the opportunity to complete their planned postsecondary courses while giving time for the Department to work with District staff to clarify the

terms of the charter.
